

5. Acknowledgements

This study is co-funded by the French Ministry of Agriculture, Agrifood and Forestry (CAS DAR Braviporc AAP n°1256). The authors want to express their acknowledgement to the technical staff of PEAT and URA (INRA Nouzilly) for diet preparation, animal rearing, sample collection and laboratory analyses, as well as P. Hartmeyer (UR AFPA), D. Marion (INRA, UR BIA) and J. Huwe (USDA, ARS) for their technical assistance and guiding.
