

Figure 1. Relationship between SCCP concentrations (log ng/g lw) and $\delta^{15}\text{N}$ in a food web from Svalbard. Figure reproduced from NILU⁶.

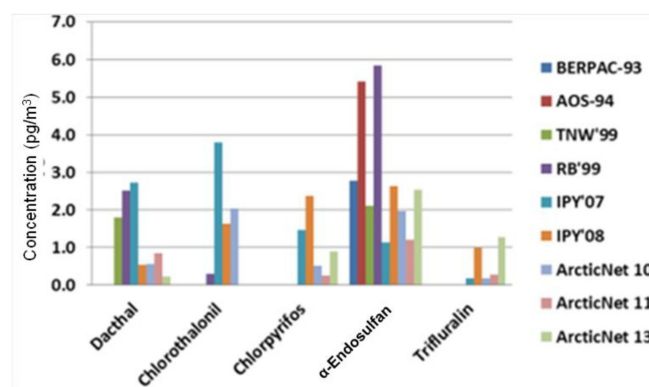

Figure 2. Temporal trends of current use pesticides (CUPs) measured in air of the western Arctic Ocean collected during oceanographic expeditions held between 1999-2013. Arithmetic mean concentrations are given in pg/m^3 . Figure from Jantunen⁷; data listed in Jantunen et al.⁸ Expeditions, listed by year, traversed the Bering-Chukchi Seas (BERPAC-1993), central Canada Basin to the North Pole (AOS-1994) and the Canadian Archipelago (TNW-1999, IPY-2007, IPY-2008, ArcticNet-2010, ArcticNet-2011, ArcticNet-2013).
